**Reggie is a bit confused with the addition and subtraction strategies he has just learnt. Can you help him choose the best way to ‘break’ the underlined number? Tick the correct box.**

1.  $570 + \underline{47}$

$40 + 7$

$30 + 17$

$20 + 27$

$10 + 37$

2.  $395 + \underline{65}$

$5 + 60$

$15 + 50$

$25 + 40$

$35 + 30$

3.  $670 - \underline{90}$

$50 + 40$

$60 + 30$

$70 + 20$

$80 + 10$

4.  $460 - \underline{70}$

$30 + 40$

$40 + 30$

$50 + 20$

$60 + 10$

5.  $750 - \underline{80}$

$40 + 40$

$60 + 20$

$50 + 30$

$70 + 10$

**Radha, Shivani and Sharon all sat down at 4:00 p.m. to start their homework. The clocks below show the times at which each finished.**

**RADHA'S  
FINISH TIME**

**SHIVANI'S  
FINISH TIME**

**SHARON'S  
FINISH TIME**

**Answer the following questions:**

- Who finished first? \_\_\_\_\_
- Who took the most time? \_\_\_\_\_
- How many more minutes did Shivani take than the person who finished first? \_\_\_\_\_
- Shivani goes out to play at 5:30 p.m. After finishing her homework, how many minutes are left for Shivani to go out to play? \_\_\_\_\_
- How much less time should Sharon have taken in order to finish at the same time as the person who came first? \_\_\_\_\_
